Subject: Debt Information

To the Citizens of Dawson County Texas;

Dawson County is the proud 4 time recipient of the Texas Comptroller's Leadership Circle Gold Award and strives to ensure that we do the very best that we can to meet a very high level of financial transparency with all of our financial operations.

We are taking that to a new level this year by responding to the Comptroller's challenge to disclose even more information that the county may have. To meet that challenge, a "Debt Criteria" category has been added to the county website and this debt information statement is required.

The County of Dawson has no bonded debt at this time, has not had for at least the last 5 years, and there are no projects or plans in place at this time that would require bonded debt or debt in lieu of bonds.

If more information is needed, please do not hesitate to call.

Thank you!
