

The Texas Division of Emergency Management has launched the self-reporting damage tool for the citizens of Dawson, County in response to the recent severe weather incident that occurred on June 26, 2021. The Texas Division of Emergency Management's iSTAT (Individual State of Texas Assessment Tool) can be accessed on this website: <https://damage.tdem.texas.gov/>

Once on the website, citizens need to log their damages on the May 17-TBD, 2021 Severe Weather Tab. Citizens submitting their damages to TDEM is for data collection purposes for local and state emergency management officials, to gather real time data on what damages occurred in Dawson, County. Citizens submitting their damages via the iSTAT self-reporting tool is not a request for funding assistance.
